

**MEDICINE HAT
COLLEGE**

School of Trades and Technology

To Whom It May Concern:

Students registered in the Power Engineering program must complete a practicum component that is for credit and is integral to the completion of their program of study. The practicum does not exceed more than 50% of the total program of study.

As part of the program, students must successfully complete one two-week field placement in the month of November in the first semester of the first year. This field placement consists of 80 hours and it is designed to provide students with unpaid industrial work experience.

If you have any questions, please contact the International Education department at Inted@mhc.ab.ca.

Thank you for your attention to this matter.

Regards,

Jamie Weatherhead, Coordinator
Power Engineering
Medicine Hat College
