PROGRAM PLANNING GUIDE 2017-2018

Environmental Science: Renewable Resource Management Diploma

The purpose of this program planning guide is to help students track their progress within their chosen program. The information in this planning guide is accurate at the time of printing and is subject to change without notice. It is the students' responsibility to ensure the accuracy of their program and course choice. Students should use the program planning guide dated the year in which they began the program. This guide should be used in conjunction with the official version of the Medicine Hat College Calendar, and calendars of appropriate transfer institutions, which are the final authorities regarding program requirements.

Year One

FALL SEMESTER			WINTER SEMESTER		
COURSE	DATE	GRADE	COURSE	DATE	GRADE
BIOL 254			BIOL 258		
BIOL 255			ENGL 155		
BOTA 205			SOSC 213		
EREC 230			STAT 251		
GEOG 201			GEOG 332 <i>Prerequisite: C- grade in GEOG 201</i>		

Program Notes:

- Medicine Hat College offers the **first year** of Lethbridge College's Environmental Science diploma program in Environmental Assessment and Restoration, Natural Resource Compliance, and Renewable Resource Management.
- Students complete the second year of Environmental Science at Lethbridge College.
- **Students must apply to transfer to Lethbridge College from Medicine Hat College.**
- Employers may require you to hold a valid Standard First Aid or Wilderness First Aid certificate and/or a CPR certificate to be eligible for employment. You are encouraged to obtain these certificates either prior to entering the program or during the first term.
- BIOL 254 and BIOL 255 have required field components. Students enrolled in these courses are expected to provide their own equipment and supplies. This may include sleeping tent, warm sleeping bag, sleeping mat, packsack, adequate clothing for cold/wet weather, hiking boots, cooking and eating utensils, binoculars, food, field notebook, compass, and hip or chest waders.
- In the second year, during the months of September through April, you will be at Lethbridge College campus completing field courses. Therefore, it is extremely difficult to take Year One and Year Two courses at the same time. You are advised to complete all Year One courses before proceeding to Year Two.
- Many courses required computer competency to complete assignments. You are advised to enroll in MICO 191 if you lack these skills.
